**MOVE
YOUR
WORLD**

Your world is about to move
Shoulder your pack
The day does not wait
Breathe in. Buckle up
The first steps are tough
Zip, clip, adjust, tighten
Trust your ambition

This is your carry moment.
Open the door
Breathe out, and go

ASCENT

ASCENT

It all started with a climbing pack. Greg Lowe designed the first Lowe Alpine expedition pack because he needed a more stable way to carry his climbing gear into the mountains. The Ascent range is the result of over fifty years of expertise, designing the best alpine climbing carry systems in the world. This range is ideal for alpinists and mountaineers who value a balance of weight, stability and reliability when moving in the mountains.

HALCYON 45:50

The Halcyon range is a modern take on the traditional mountain pack. It is a mix of hard-wearing fabrics, carefully considered construction and essential carry features. Perfect for an overnight bivi in the Alps or a long Scottish winter day with changeable conditions. The Halcyon 45:50 has enough volume for those extra bits of gear that make a day winter climbing a little more enjoyable.
